

HTML comments

Between two words

Reads "Bookkeeper", with no space.

Bookkeeper

Between inline elements

Reads "Bookkeeper", with "Book" in bold and "keeper" in italics, and no space between them.

Book*keeper*

In a table cell

The cell reads "Bookkeeper", with no space.

Bookkeeper

In preformatted text

Three lines: "Bookkeeper" with no space, an empty line, and "keeper".

Bookkeeper

keeper

A conditional comment

Reads "Bookkeeper", with no space and no "hidden".

Bookkeeper

A comment marker in a script

Reads "Bookkeeper", with no space and none of the script.

Bookkeeper

mPDF content

Reads "Shown only by mPDF, and Bookkeeper": the markers go and their content stays, and the comment inside it leaves no space.

Shown only by mPDF, and Bookkeeper
