border-radius on inline elements

A green background and a 1mm blue border, radius 3mm: all four corners rounded, the border following the curve with the green inside it.

Before rounded span after.

The same span wrapping over three lines: rounded on the left of the first line and on the right of the last, square where it wraps, and the middle line square at both ends.

Start this span goes on long enough to wrap
onto a second line, and then it goes on past
the end of that line onto a third one end.

A bold word inside the span: one box, rounded only at its two ends.

Before a **bold** word after.

A yellow background alone, radius 50%: an ellipse as wide and tall as the span.

Before ellipse after.

border-radius: 0 3mm on a light blue background: square at the top left and bottom right, rounded 3mm at the top right and bottom left.

Before uneven corners after.

Red borders, 1mm dashed, 1mm dotted and 1.5mm double, radius 3mm: the dashes and dots run round the curves, and the two lines of the double border both curve.

dashed dotted double

A 1.5mm groove in #3366cc, radius 3mm: dark outside and pale inside along the top and left, the other way round along the bottom and right, both rings curving.

Before groove after.

A 0.5mm red outline 0.5mm out from a rounded span: the red ring rounds with it.

Before outlined after.
