Attribute selectors and :lang()

[data-flag]

The paragraph and the span carrying the attribute are red and bold, even with no value. The others stay black.

Paragraph with the attribute
Paragraph with the attribute and no value
Paragraph without it, but **a span with it**

p[data-status="paid"]

Only the paragraph whose status is exactly "paid" is green and bold. "Paid" with a capital and "paid in full" stay black.

Status paid
Status Paid, with a capital
Status paid in full

p[data-status="paid" i]

With the i flag, "paid" and "PAID" are both green and bold. "unpaid" stays black.

Status paid
Status PAID
Status unpaid

p[data-tags~="urgent"]

The paragraph with urgent as one of its tags is red and bold. The one tagged "urgently" stays black.

Tags: new urgent billing
Tags: urgently

p[lang|="en"]

English and British English are blue and bold. "eng" stays black.

lang en
lang en-GB
lang eng

a[href^="https://"], a[href$=".pdf"] and a[href*="example"]

The secure link is green. The PDF link is red and bold. Both example.com links have a yellow background. The plain link keeps the default blue.

Secure example link
Example PDF
Plain link

ol[type="a"] li, an attribute HTML compares in any case

The items of the list with type="A" are red. The numbered list stays black.

A. Lettered one
B. Lettered two

1. Numbered one

td[data-status="overdue"]

Only the overdue cell is pink.

INV-1 paid	INV-2 overdue	INV-3 draft

p:lang(fr), inherited from a block

The paragraphs inside the French block are blue and italic, one of them through a nested div. The German one stays black.

Un paragraphe

Un autre paragraphe

Ein Absatz

p:lang(en-GB), from the html tag

The document is British English: the first paragraph is green and italic. The one marked French stays black.

A paragraph in the document's language

Un paragraphe en français

img[src$=".png"] and img[src$=".png"] + b

The PNG image, whose path has slashes in it, has a red border, and the bold text after it is red. The JPEG image has no border, and the bold text after it stays black.

 **After the PNG**

 After the JPEG

[data-hidden="yes"] + p, after an element hidden with display: none

The hidden blocks show nothing. The paragraph after the one marked "yes" is red and bold; the paragraph after the one marked "no" stays black.

After the block marked yes

After the block marked no
