currentColor, and colours that draw nothing

A border in currentColor is green, the colour of the text.

Green text in a green border

A border that names no colour is green too.

Green text in a green border

A dashed border with no colour on a block inside a blue one is blue.

Blue text in a blue dashed border

A span's border with no colour is red, around the red word only.

Black text with a red boxed word in it.

The cells of a purple table have purple borders that name no colour.

First cell	Second cell

The items of an amber list are underlined in amber by a border-bottom with no colour.

- First item
- Second item

An image in green text has a green frame that names no colour.

An image in green text.

A transparent border takes its width and draws nothing: only the red bottom side shows, and the text is set in 3mm from the left.

Text inside a transparent border

A hidden border draws nothing, not even a hairline.

Text inside a hidden border

Transparent text takes its place and is not seen: the brackets hold a gap.

Between the brackets [ ] there is only space.

A box-shadow with no colour is green, and a text-shadow with no colour is red.

A block with a green shadow

Red text with a red shadow

A transparent text-shadow draws nothing: only the blue shadow shows.

Black text with a blue shadow

A background in currentColor is peach, the block's colour, behind black text.
