Written with cssMode set to standard.

Masthead

A table filled by bgcolor, with font color and size. Both: white "ACME Supplies" and yellow "INVOICE" on dark blue, and a light blue tagline, .tagline beating its font color.

ACME Supplies
Everything for the workshop

INVOICE
No. 10042

Greeting

p align="center" against p.greeting. Standard: the greeting is at the left, the rule beating the attribute. Legacy: it is centred, the attribute beating the rule. The paragraph with only its attribute is centred in both.

Dear customer, thank you for your order.

Your order has been sent.

Items

th bgcolor against table.items th, and td align="center" against td.amount. Both: the headings are white on blue, the rule beating bgcolor. Standard: the amounts are at the right, the rule beating the attribute. Legacy: they are centred. The quantities, with only their attribute, are centred in both, and every cell has a thin black border from border="1".

Item	Qty	Amount
Widgets	4	40.00
Sprockets	12	96.00
Gaskets (back-ordered)	3	7.50

Summary

table border="1" against table.summary. Standard: the table's own border is thick and blue, the rule beating the attribute, and its cells keep a thin black border. Legacy: every border is thin and black. The total is on one line in both, by nowrap.

Subtotal	143.50
Delivery	10.00
Total due	**153.50 AUD**

Footer

hr color against hr.divider, and color on a link and a span. Both: the rule is blue, hr.divider beating the attribute. Standard: the rule is half as wide as the page, at its left, and the link is blue and the note black, neither element taking a color attribute. Legacy: the rule is as wide as the page, and the link is blue and the note red.
