# Gradient stops and positions at fractions and zero lengths, cssMode legacy

## Stops

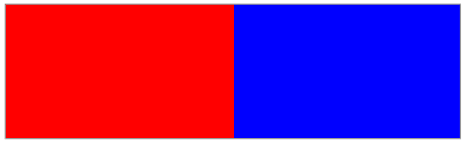

red 12.5%, blue 50%: solid red for the first eighth, fading to blue by halfway, solid blue after.

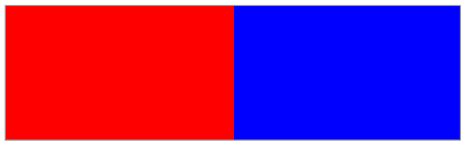

red 20%, green, blue 80%: stops in order are untouched, red to a fifth, green in the middle, blue from four fifths.

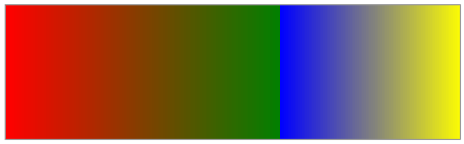

red 50%, blue 0px: red on the left half, blue on the right half, a hard edge at the middle.

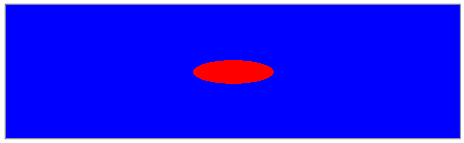

red 50%, blue 0%: the same, a hard edge at the middle.

red, green 60%, blue 20%, yellow: red fading to green at 60%, a hard edge to blue there, fading to yellow at the right.

radial, red 12.5%, blue 0px: a small red centre with a hard edge to blue around it.

## Positions

radial at 12.5% 50%: red an eighth of the way across, halfway down.

radial 12.5% 50%, circle: red an eighth of the way across, halfway down, in round rings.

radial at 0px 0px: red in the top left corner.

radial 0px 0px, circle: red in the top left corner, in round rings.

-moz- linear 12.5% 50%: from red an eighth of the way across to blue an eighth in from the right, upright bands.

linear 10px 0px: from red at the top left to blue at the bottom right, the bands leaning.

## Repeating gradients with a period of no length

linear, red 0px, blue 0px: solid purple, the average of red and blue.

linear, red 50%, blue 0%: blue moves up to 50%, a period of no length again, so solid purple.

radial, red 0px, blue 0px: solid purple.

linear, red 0, blue 10%, a period with length: red to blue ten times across.
