Percentages on an image in a table cell

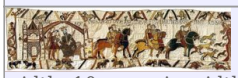

max-width: 100% keeps the declared column widths

Columns of 20%, 20% and 60%. The picture fills its 36mm column and does not widen it.

20%		60%

max-width, width and min-width are of the cell

Three 60mm columns in each row.

 max-width: 20%	 width: 50%	 width="100%"
 width: 10mm; min-width: 50%	 max-width: 20mm	 max-width: 100%; border-radius: 50%

In a nested table

The inner table fills the right half of the page. The picture fills the inner right cell.

50%	inner 50%	

In a table of width: auto

Sized by its content, as a table given no width is. The picture given max-width: 100% keeps its own 400px.

auto	

In a table shrunk to fit its page

A 300mm column and a 60mm one, halved to fit. The picture given min-width: 100% fills the 30mm it gets.

300mm	

In a table too wide for its page

Long unbreakable words in five columns. The picture with max-width: 100% is shrunk with the table rather than squeezed to nothing.
