Rows and row groups pass their properties to their cells

color: #c00000 on the second row. Its two cells are red; the first row's are black.

First row	First row
Second row	Second row

font-family: monospace and text-transform: uppercase on a tbody. Every cell in it is monospaced and in capitals.

FIRST CELL	SECOND CELL
THIRD CELL	FOURTH CELL

text-align: right and font-weight: normal on a thead. The th is right-aligned, as it inherits an alignment, and still bold. The td beside it is right-aligned and not bold. The th in the tbody below sets nothing and inherits no alignment, so it is centred.

Header	Data in the head
Centred	Body data

font-weight: bold and color: #1e5f74 on a tfoot. Its cells are bold and teal; the tbody's are not.

Item	12.00
Total	**12.00**

A rule for tbody, and rows written straight into the table with no tbody tag. The cells are green and italic, as the rows are in a tbody all the same.

First row	*First row*
Second row	*Second row*

font-size: 150% on a tbody in a 10pt table, and font-size: 80% on its second row. The first row's cells are 15pt, the second row's 12pt.

15pt	15pt
12pt	12pt

color: #c00000 on a row whose second cell sets color: #1f4fa0. The first cell is red and the second blue.

Row colour	Cell colour
