Kiln firing notes

Written with cssMode set to standard.

Firing summary

The callout is a dark block that sets pale sans-serif text spaced 0.2mm. Standard: the table in it has pale, spaced, sans-serif cells too. Legacy: its cells are in the body's dark serif, hard to read on the dark background.

Three firings this month, all to cone 6.

Bisque	1,000 °C	9 hours
Glaze	1,222 °C	11 hours

Loading steps

Each list item is green and italic. Standard: the table in the second step is green and italic too. Legacy: it is dark and upright.

1. *Stack the shelves on three posts.*
2. *Space the pots by size:*

Mugs	*1 cm apart*
Bowls	*2 cm apart*

From the kiln log

The quotation sets 12pt brown text, 1.8 apart and aligned right, and its table sets font-size: 75%. Standard: the table's cells are 9pt, brown, 1.8 apart and aligned right, and its th is aligned right. Legacy: they are 7.5pt, a quarter below the document's 10pt, dark, 1.2 apart and aligned left, and the th is centred.

> The last load came out even from top to bottom.

Shelf	Cone
Top (near the lid)	6

Panel

The panel cell sets slate monospace text aligned right, 2 apart, and holds a nested table. Standard: the nested cells are slate monospace, aligned right and 2 apart, and its th is aligned right. Legacy: they are in the body's dark serif, aligned right and 1.2 apart, and its th is centred.

Cone chart

Cone	Temperature
5 mid-fire	1,196 °C
