box-shadow: inset

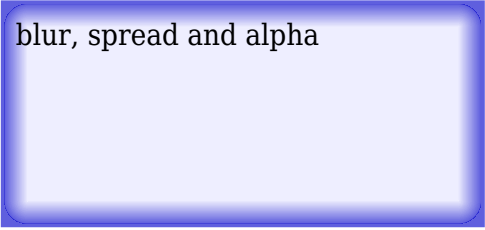

offset and blur

A light blue rectangular box with a red inset shadow. The shadow is a solid red border of moderate thickness applied to the top and left edges of the box.

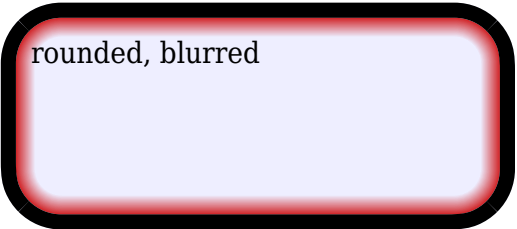

blur alone

A light blue rectangular box with a red inset shadow. The shadow is blurred, creating a soft, out-of-focus red border along the top and left edges.

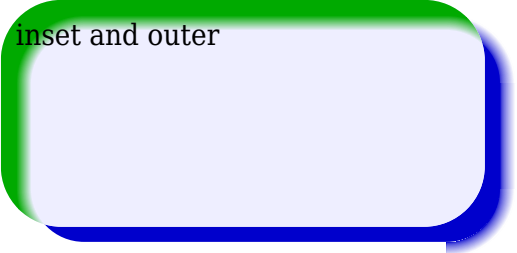

blur, spread and alpha

A light blue rectangular box with a blue inset shadow. The shadow is both blurred and spread, appearing as a soft, light blue border that extends slightly outside the top and left edges of the box.

rounded, blurred

A light blue rectangular box with rounded corners. It has a red inset shadow that is blurred. The shadow is a soft, out-of-focus red border following the rounded shape of the box.

inset and outer

A light blue rectangular box with rounded corners. It features two shadows: a green inset shadow on the top and left edges, and a blue outer shadow on the right and bottom edges. Both shadows are blurred.

over a gradient

A rectangular box with a vertical gradient background, transitioning from light gray at the top to white at the bottom. A red inset shadow is applied to the top and left edges of the box.
