Cursive joining

A letter of a cursive script takes its form from the letters either side of it, so a character read as joining on the wrong side is drawn correctly itself and misshapes its neighbour. Every sample runs right to left; read the letter on the right of each, and compare it with the two samples under it.

Syriac: Beth before Sogdian Fe

Beth, Sogdian Fe - initial Beth

A cursive Syriac letter 'Beth' followed by a Sogdian 'Fe'. The 'Beth' is written in a cursive style that connects to the 'Fe' on its right.

Beth, Semkath - initial Beth, the form to match

A cursive Syriac letter 'Beth' followed by a Semkath. The 'Beth' is written in a cursive style that connects to the Semkath on its right.

Beth alone - isolated Beth, the form it was given

A cursive Syriac letter 'Beth' written in isolation, showing its form when not connected to other letters.

Beth, Sogdian Fe, Beth - initial and final Beth

A cursive Syriac letter 'Beth' followed by a Sogdian 'Fe', followed by another cursive 'Beth'. The first 'Beth' connects to the 'Fe', and the second 'Beth' is written in a cursive style that connects to the 'Fe' on its right.

Arabic: Beh before Low Alef

Beh, Low Alef - isolated Beh

A cursive Arabic letter 'Beh' written in isolation, showing its form when not connected to other letters.

Beh alone - isolated Beh, the form to match

A cursive Arabic letter 'Beh' written in isolation, showing its form when not connected to other letters.

Beh, Alef - initial Beh, the form it was given

A cursive Arabic letter 'Beh' followed by an Alef. The 'Beh' is written in a cursive style that connects to the Alef on its right.
