SVG gradients through a pass that is unwound

The next page is the contents. Its band has to show a gradient, not a blank space.

Contents

A band fading from magenta, half transparent, to cyan:

The index 3

This page is here to be indexed.

G

Gradient 3

The same band after the index, fading from magenta to cyan:

A tall block, so that the next one does not fit under it.

This block moved to a page of its own. Its band fades from orange to blue:
