box-shadow: inset

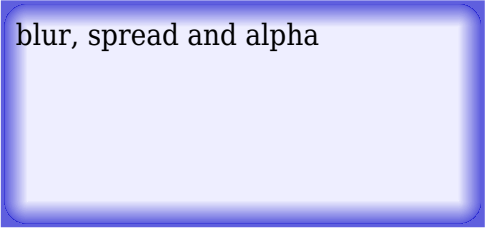

offset and blur

A light blue rectangular box with a red inset shadow. The shadow is a solid red border of medium thickness applied to the top and left edges of the box.

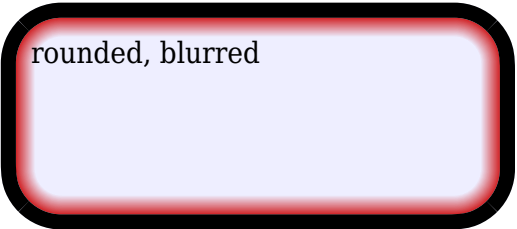

blur alone

A light blue rectangular box with a red inset shadow that has a blur effect. The shadow is a soft, out-of-focus red border applied to the top and left edges.

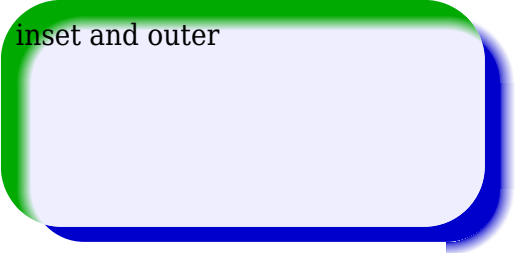

blur, spread and alpha

A light blue rectangular box with a blue inset shadow. The shadow is blurred and has a spread effect, appearing as a soft, wider blue border on the top and left edges.

rounded, blurred

A light blue rectangular box with rounded corners. It has a red inset shadow that is both blurred and spread, creating a soft, wide red border on the top and left edges.

inset and outer

A light blue rectangular box with rounded corners. It features two shadows: a green inset shadow (blurred and spread) on the top and left edges, and a blue outer shadow (blurred and spread) on the bottom and right edges.

over a gradient

A rectangular box with a vertical gradient background, transitioning from light gray at the top to white at the bottom. A red inset shadow (blurred and spread) is applied to the top and left edges of the box.
