Zero, small and negative line heights

line-height: 0

line-height: 0 is read as normal: the three lines are normally spaced on the blue background, and the green line starts below it.

First
Second
Third

The green line after line-height: 0

line-height: 0px: the same.

First
Second
Third

The green line after line-height: 0px

line-height: 0 on the div around the paragraph: the same.

First
Second
Third

The green line after the div

Smaller than the font

line-height: 1mm: each line is stretched down to the baseline, so the lines are about 2mm apart, on a background about 6mm tall.

First
Second
Third

The green line after line-height: 1mm

line-height: 0.5: each line is stretched down to the baseline, so the background is about 21pt tall rather than 18pt.

First
Second
Third

The green line after line-height: 0.5

Negative line heights

line-height: -1 and -2mm inside a div with line-height: 2 are applied: the lines of the first two paragraphs are drawn over one another on a thin background. Only the third, which sets nothing, is double spaced.

Table cell

line-height: 0 in the middle cell is read as normal: its two lines are normally spaced, and the row is as tall as the three lines of the first cell.
