Zero, small and negative line heights

line-height: 0

The three lines are drawn at the same height, the blue background has no height, and the green line starts straight after it, over the lower half of the text.

First Second Third

The green line after line-height: 0

line-height: 0px: the same.

First Second Third

The green line after line-height: 0px

line-height: 0 on the div around the paragraph: the same.

First Second Third

The green line after the div

Smaller than the font

line-height: 1mm: each line 1mm below the one before, so they overlap, on a background 3mm tall.

First Second Third

The green line after line-height: 1mm

line-height: 0.5: each line half the font size (6pt) below the one before, so they overlap, on a background 18pt tall.

First
Second
Third

The green line after line-height: 0.5

Negative line heights

line-height: -1 and -2mm inside a div with line-height: 2 are ignored: both paragraphs are double spaced, like the third, which sets nothing.

Table cell

line-height: 0 in the middle cell: its lines overlap and the row is only as tall as the other cells, which are normal.
