rotate on a positioned block

rotate: 90. Turned clockwise: the text reads top to bottom.

rotate: 90deg. Turned clockwise: the text reads top to bottom.

rotate: -90deg. Turned counter-clockwise: the text reads bottom to top.

rotate: 270deg, the same as -90deg. The text reads bottom to top.

rotate: 180deg. Turned upside down: the text reads right to left, upside down.

rotate: 45deg, which mPDF does not support. Not turned: the text reads left to right.
