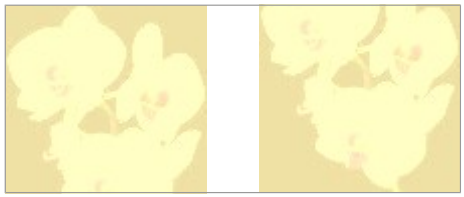
Multiple backgrounds

background: url(bg.jpg) no-repeat, linear-gradient(red, blue). The image once at the top left, over a red to blue gradient.

background: linear-gradient(red, blue) 0 0 / 50% 100%, url(bg.jpg). A red to blue gradient over the left half, covering the tiled image, which shows on the right half.

background-image: url(bg.jpg), url(bg.jpg); background-repeat: no-repeat; background-position: left top, right bottom. The image twice, once in the top left corner and once in the bottom right.



background: url(bg.jpg) no-repeat, #ccccff. The image once at the top left, on a light blue box: the colour is the last layer's.

background-image: linear-gradient(to right, red, blue), radial-gradient(yellow, green); background-size: 50% 100%, auto. A red to blue gradient over the left half; the right half shows the rest of a yellow to green radial gradient, yellow at the middle of the box and green at its right edge.

Three images, background-repeat: no-repeat, repeat-x; background-position: right top, left bottom, left top; background-size: 10mm. A small image once at the top right, a row of them along the bottom, and one at the top left, which takes the first repeat again.

A table cell with background: url(bg.jpg) no-repeat, linear-gradient(red, blue). The image once at the top left, over a red to blue gradient.

This page's @page rule has background: url(bg.jpg) no-repeat center, linear-gradient(#ffffcc, #99ccff). The image once in the middle of the page, over a pale yellow to pale blue gradient.
