## Attributes read by name

A header and footer with a data-name before their name: a green band at the top and bottom of the page.

A body whose data-style is red on pink, before a style of green: the next line is green on white.

### Green text on white

A body with data-dir="rtl" and data-lang="fr", which a p:lang(fr) rule colours red: the next line starts at the left and is green.

### Left-aligned green text

The title "Set a=1 first", the keywords "set x=1 first" and the author J "Q" Public, single quoted with the content first, are in the document information.
