

rotate on a positioned block

rotate: 90. Turned clockwise: the text reads top to bottom.

Turned block 90

rotate: 90deg. Turned clockwise: the text reads top to bottom.

Turned block 90deg

rotate: -90deg. Turned counter-clockwise: the text reads bottom to top.

Turned block -90deg

rotate: 270deg, the same as -90deg. The text reads bottom to top.

Turned block 270deg

rotate: 180deg. Turned upside down: the text reads right to left, upside down.

Turned block 180deg

rotate: 45deg, which mPDF does not support. Not turned: the text reads left to right.

Turned block 45deg
