object-fit, object-position and aspect-ratio

object-fit in a 40 x 25 mm box

fill: the photo stretched to the box.

contain: the whole photo, centred, grey bars above and below it.

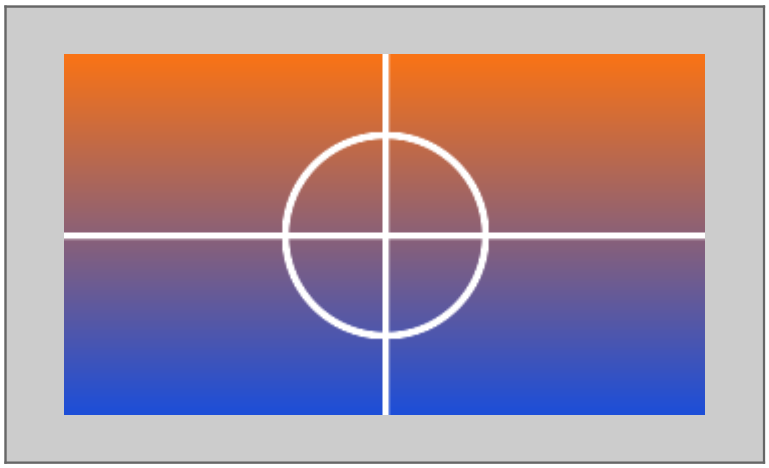

cover: the box filled, the photo cut off at both sides.

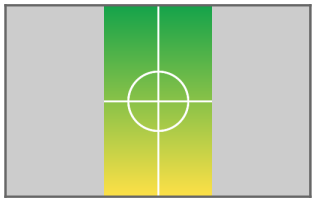

none: the middle of the 16:9 picture at its natural size.

scale-down in a 100 x 60 mm box: the 16:9 picture at its natural size, centred.

contain on a tall picture: grey bars at the sides.

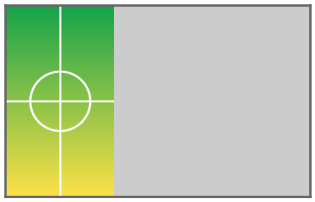

cover on a wide picture: cut off at the sides.

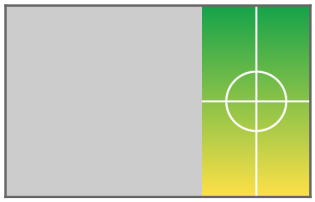

object-position

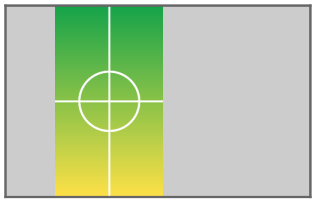

left top: the picture against the left of the box.

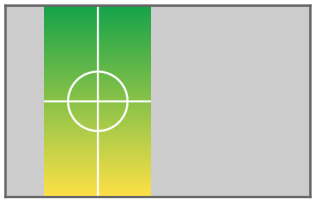

right: the picture against the right of the box.

25% 0: a quarter of the grey on the left.

5mm 0: 5 mm of grey on the left.

cover, left center: the left end of the photo kept, its right end cut off.

aspect-ratio

width 40mm, 1 / 1: a 40 mm square, the photo stretched to it.

height 20mm, 3 / 1: 60 x 20 mm, the photo stretched to it.

width 60mm, 3 / 1, cover: 60 x 20 mm, the photo cut off a little at both sides.

auto 1 / 1: the photo in its own proportions.

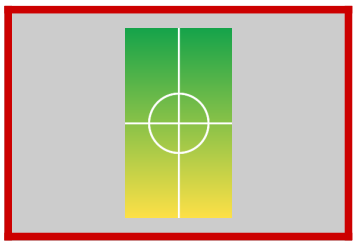

Rounded, padded, in a table, and SVG

cover with border-radius: the photo filling the rounded box.

contain with padding and a red border: the border round the 40 x 25 mm box, not the picture.

in a table cell, contain, right: the picture against the right.

an SVG with contain: the whole drawing, in its own proportions.
